

OYOOY®  
ZOO 🐾

This year stands out as something very special, as we mark the  
10-year anniversary of OYOY Living Design.

As we have grown over the years, one thing remains the same:  
our design philosophy is strongly based on the Danish design heritage and traditions  
associated with Danish quality and craftsmanship. Always with a twist of playfulness and  
inspiration from childhood memories. We all have them: the memories. Time flies, but  
memories are with you forever.

Our designs are playful, classic, functional, and long lasting with unique details and alluring  
colour combinations. Influenced by traditional Danish design, some of our products are  
redesigns of childhood memories. Based on these memories unique products are created  
focusing on form and shape meeting functionality.

We look forward to be sharing a very special anniversary year with you and proudly presents the  
Spring/Summer collection.
