

Care and Maintenance

Thank you for your order.

We hope that your new OYOY product will fit perfect in your home!

With the purpose of designing and developing quality furniture with a long life and a sustainable imprint, you will find OYOY Living Design's wooden furniture. When it comes to the choice of material and the function of each design nothing is left to chance. All wooden furniture is produced in Europe, in a high quality of wood, which is carefully selected for each individual product.

In order to achieve a long life for your wooden furniture, it is important that you maintain your furniture according to the conditions. Wood is a natural and organic material, and different environments will affect the furniture differently. It is essential for the durability of the product that you take care of your wooden furnitures.

Below we have listed some advice that can help ensure a long life for the product.

- The wood will easier be affected of the environment when it is new. We recommend that you are extra careful by not permanently covering the table in the first period. By doing so you may prevent permanent discolorations, marks or rings on the wood.
- To protect the product the best possible way it is recommended to avoid high changes in the room and direct sunlight.
- It is important to protect the surface on the wooden furniture. We recommend that you treat the wood with soap* or oil. Soap treatment will lighten the wood, whereas oil will darken the wood.
- For daily care, we recommend wiping with a wring-out cloth in a mild soap solution. It can be recommended to use a soft microfiber cloth.
- Dry immediately if you spill liquid on the wooden furniture.

*Always use white soap flakes in water (According to guidelines on package and remember the water must be cooled down before applying), or soap specifically for wooden furniture to treat the furniture with. Never use brown soaps, fat dissolving- and other chemicals.

Always check the furniture for faults and defects before assembling according to the included assembly instructions.

Congratulations and have fun with your new wooden furniture from OYOY Living Design

We wish you a wonderful day ♡

Kind regards from

TEAM OYOY
