

MAILEG SIZE GUIDE

Are you looking for accessories for your child's Maileg friend or another Maileg friend?

The sizes at Maileg can be a bit confusing in the beginning. We have multiple sizes that just differ in a few centimeters but make the whole Maileg universe complete. It's important that there are all these different-sized mice, beds, tents, and so on because this is a part of the magic to Maileg.

Since you are shopping online on our website and it is even harder to see the differences and what they match best with, in this blog post we are trying to give you a little overview.

Bunny & Rabbit

With the bunnies and rabbits, it is a bit trickier, since we updated the sizes and now have 'old' and 'new' sizes. The My and Micro stayed, which are the smallest in both. To make sizing easier, the new Sizes are in the numbers of one to five.

Mice

Our Maileg mice family has three generations and different themes, do you already know the hiking mouse, ballerina studio or beach collection?

Comparing old to the new

Here comes a little comparing of the old to the new scope, so you can check if the clothing from new collections can still fit the bunny or rabbit you already have.

Size 1 is close to Mini, size 2 is completely new size that is in between the Mini and Medium size. Ongoing the sizes can be compared, size 3 to Medium, size 4 to Maxi, and size 5 to Mega. The old Mega maxi size has no opponent in the new size cart and will, therefore, be discontinued.
